

UPDATE REGARDING THE SECTION 301 TARIFFS

May 13, 2019

In light of the recent tariff increase, we want to assure you that it's business as usual. We will continue to offer our excellent 30 Day Door-2-Door program and our 65 Day Custom Overseas program with minimal pricing increases and no delays meeting in-hands dates. Our 21 Day program will of course remain unaffected as it is Vietnam based and we are working to expand within this program to offer you even more capabilities. Our in house team of overseas specialists will continue to work seamlessly with our customer service team and our international associates to provide the highest quality products in an effortless and efficient manner.

We also promise to hold pricing on all pull from stock items until December 31st, 2019, barring no further increases in tariffs. Our in stock options offer a variety of styles, and our domestic decoration capabilities allow you to create custom looks that will best represent your brand. Once known primarily for our embroidery capabilities, we now also offer screen print, leather and embroidered patches, sublimated appliques, and SuperFlex. Let our design team create virtual concepts for you so you can visualize the possibilities of our in stock headwear.

Finally, we would like to proudly remind you of our USA made knits that are produced right here in our Fredericktown, Missouri location. As we approach the summer months, we realize that winter wear might be the last thing on your mind, but remember that we will produce and hold your order to ship when needed so that you don't have to worry about a busy knit season production schedule! Our RK Ready Knits are always ready to ship in three days after sample approval and offers a wide variety of patterns and designs. But our completely custom domestic knit production does vary seasonally, so reach out to your customer service rep to schedule your order today.

If you have any concerns regarding the most recent changes and updates regarding Section 301 tariff increases, please don't hesitate to reach out.
